

Preschool Field Trips

Learning is emphasized throughout the summer with hands on activities that correlate with our curriculum.

Preschool children will participate in water activities, picnics & play at the local park, field trips, special visitors and sports every week. The water activities include sprinkler day and swim lessons at the local YMCA. Children will participate in picnics at the Local Park as well as sport and play activities twice a week. Our special visitors include the local fire and police departments, magicians, animal friends and puppet shows. Field trips include the zoo, Kiddie Park, Great Lakes Science Center, Children's Museum, Inflatables and many more.

If you have any questions or would like to enroll your child(ren) into our program please contact the local site Director for more information. We look forward to bonding with you and your child through this fun yet educational experience.

Sincerely,

Mrs. Stella Moga-Kennedy
& staff at Le Chaperon Rouge
